Subject: Briefing to Jim Dyer and Brian Sheron on Caldon Background

A briefing has been tentatively set up for 4:00 on Tues, 1-6 in Jim's office. the subject of the mtg has to do with issues involving Westinghouse and Caldon ultrasonic feedwater flow measurement equipment and topical reports from Caldon, ER-262, "Effects of Velocity Profile Changes Measured In-Plant on Feedwater Flow Measurement Systems and Westinghouse, WCAP-15689, "Evaluation of Transit-Time and Cross-Correlation Ultrasonic Flow Measurement Experience with Nuclear Plant Feedwater Flow Measurement." Caldon feels that a long period of time has elapsed in dealing with issues that they have raised including their expressed need for a revision to the SE on ER-262. Caldon's consultant, Hugh Thompson has requested a meeting to discuss their perceived delays. This briefing is in preparation for the meeting with Hugh Thompson, is scheduled.
