Q-8

Nuclear Regulatory Commission  
Licensing Assistance Team  
Attn. Shirley Xu  
475 Allendale Road  
King of Prussia, PA 19406-1415

Subject: 1. Request for continuing education in 35.400 Therapy.

Dear Shirley Xu:

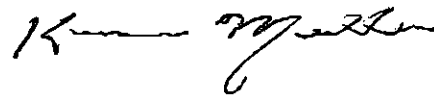

030 03301

Thank you for the phone call regarding the additional information needed to process  
Control Number 140928, NRC Radioactive Materials License # 45-00317-02.

1. I have previously submitted the NRC Form 313A (RSO) including 35.400 completed by my preceptor, former Radiation Safety Officer, Dr. John C. Chinault.  
I have again at your request reviewed the protocols and procedures for 35.400 with the physicist responsible for the seed implant program at our facility (Amy Street), including the receipt, inventory, waste, assay and calibration of the seeds. Dr. Dean Broga and I review these records during the semi-annual and annual Programmatic Review.

If I can provide anymore information please contact me at (804) 862-5584 or  
kevin\_mullen@chs.net

Sincerely,

Kevin Mullen  
Manager of Nuclear Medicine
