Subject: UFM ISSUES (NRR-2003-A-0003, 0007)

On December 2, 2004, I returned a call to the CI in the subject case. I have been talking with him regularly over the last few months to keep him apprized of the status of the review of his concerns.

During the discussion he noted that, due to the length of the review, he had forgotten the specific issues he raised. I took the time to re-iterate the concerns as they were being reviewed by the NRC. I noted the 1st had been sent and no comments received. I noted the 2nd had been modified based on an email comment he provided. Afterward, he confirmed those were the issue raised.
