Dear Dr. Medford:

SUBJECT: WATTS BAR UNIT 1 - TEAM INSPECTION ON PROGRAM FOR ASSURANCE OF
COMPLETION AND ASSURANCE OF QUALITY (PAC/AQ)
(TAC NOS. M83748 and M83749)

Part of our review efforts on the Watts Bar PAC/AQ involve a number of team inspections. The staff has issued the report on the first one (Inspection Report 50-390, 391/93-203) on October 19, 1993. The second inspection will take place during November 29 through December 3, 1993, and will be led by Mr. Robert M. Latta. This inspection will focus on evaluating TVA's resolution of deficiencies identified during the course of PAC/AQ, and examination of plant hardware as needed to assure that as-built plant conditions match selected commitments. The inspection findings will be documented in Inspection Report 50-390, 391/93-204.

We have discussed this with Messrs. Paul Pace and Dennis Herrin of your site licensing staff, and agreed that the visit will take place as stated above. Mr. Latta will relay the details of the team inspection to Mr. Pace.

Sincerely,
