NUCLEAR REGULATORY COMMISSION

REGION III
2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

SEP 24 2007

Randall J. Phillips, M.D.
Radiation Safety Officer
QHG of Indiana, Inc.
7950 W. Jefferson Blvd
Fort Wayne, IN 46804

Dear Dr. Phillips:

Enclosed is Amendment No. 57 to your NRC Material License No. 13-01535-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please note that Dr. Sanghvi was not added as an authorized user on your license nor was Dr. Ahluwalia authorized as a user of 35.300 material. If you wish to pursue adding these physicians to your license as authorized users of the material requested, please review 10 CFR 35.290, 35.390(or 392, or 394) and complete an NRC Forms 313A(AUD) and 313A(AUT) as appropriate. The most current regulations and forms can be found on the NRC website, www.nrc.gov.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, appearing to read "Toye L. Simmons".

Toye L. Simmons
Materials Licensing Branch
