Ms. Tanya M. Mensah
Senior Project Manager
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Electric Power Research Institute (EPRI) Topical Report (TR)-103237, "Motor-Operated Valve (MOV) Performance Prediction Program - Topical Report," Response to Request for Additional Information (RAI), (TAC NO. MD3236)

Project Number: 689

Dear Ms. Mensah:

On June 8, 2004, as supplemented by letter dated January 6, 2006, NEI submitted to NRC for staff review, Addenda 3, 4, 5, 6, and 7 to EPRI TR-103237, "EPRI MOV Performance Prediction Program - Topical Report". On April 23, 2007, the NRC submitted to NEI a request for additional information (RAI) on these addenda.

Enclosed is the EPRI response for NRC staff review. NEI is looking forward to the second set of RAI's to PPM Code Version 3.3 by November 2007. A conference call is requested to discuss the draft RAI's prior to issuing to NEI. A review of the milestone schedule dates and project end date should also be done during this call to ensure a scheduled completion date of June 30, 2008 is met.

If you have any questions or comments, please contact me at 202.739.8137; jhr@nei.org or Mike Melton at 202.739.8049; mam@nei.org.

Sincerely,

A handwritten signature in black ink that reads "James H. Riley". The signature is written in a cursive style.

James H. Riley

Enclosure

c: Mr. John Hosler, EPRI
