RE: Proposed Authorized Nuclear Pharmacist – Brian Thurston, Pharm.D.

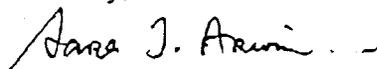

Dear Kay:

Attached please find documentation outlining the nuclear pharmacy training and experience received by Brian Thurston, Pharm.D.

Dr. Thurston has received an "on-the-job" nuclear pharmacy training and practical experience under my supervision during the period of April 23, 2007 to June 29, 2007.

Based on Dr. Thurston's training and experience, as outlined in the attached documents, I'm convinced that he has achieved the level of competency sufficient to independently operate a nuclear pharmacy therefore I recommend to elevate Brian Thurston, Pharm.D. to the status of Authorized Nuclear Pharmacist in accordance with CFR 32.72.

Sincerely,

Sara I. Arwin, R.Ph.
Radiation Safety Officer
