

NOTICE OF VIOLATION

Tennessee Valley Authority  
Watts Bar Units 1 and 2

Docket Nos. 50-390 and 50-391  
License Nos. CPPR-91 and CPPR-92

During an NRC inspection conducted October 11 through November 19, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violation is listed below:

10 CFR 50, Appendix B, Criterion V, and Tennessee Valley Authority Nuclear Quality Assurance Plan TVA-NQA-PLN89-A, Revision 4, Section 6.1.1, require in part that activities affecting quality be prescribed by documented instructions or procedures and shall be accomplished in accordance with these instructions or procedures.

TVA Nuclear Power Standard Manual, STD-6.1, Conduct of Maintenance, Revision 0, Section 3.2, and Watts Bar Site Standard Practice, SSP-6.01, Conduct of Maintenance, Revision 3, Section 2.2, requires that maintenance personnel shall have a combination of education, training, and experience commensurate with their responsibilities.

Contrary to the above, for a period of approximately one year ending October 25, 1994, an EBASCO Engineering Aide was allowed to perform duties as a field engineer associated with maintenance activities on safety-related systems without meeting the minimum requirements for education and experience defined in the Position Descriptions for job classifications of personnel that perform duties as field engineers.

This is a Severity Level IV violation (Supplement II).

Pursuant to the provisions of 10 CFR 2.201, Tennessee Valley Authority is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, Watts Bar, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an

Notice of Violation

2

adequate reply is not received within the time specified in this Notice, an order or demand for information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
