Gentlemen:

In the Matter of the Application of)	Docket Nos. 50-390
Tennessee Valley Authority)	50-391

WATTS BAR NUCLEAR PLANT (WBN) - UNIT 1 AND UNIT 2 - NRC INSPECTION REPORT
NO. 50-390, 391/94-76 - CHANGE IN COMMITMENT FOR NOTICE OF VIOLATION
50-390, 391/94-76-01

The purpose of this letter is to notify NRC of a change in commitment for
TVA's response to Notice of Violation 50-390, 391/94-76-01.

In order to correct a previous example of an individual performing functions
without documented qualifications, the Plant Completions Group (PCG) manager
committed to personally selecting field engineering personnel. Although the
present PCG manager retains this responsibility, a decision has been made to
delegate the selection process to a member of the management team who will
review qualifications based on specific instructions provided by the PCG
manager.

If you should have any questions, contact P. L. Pace at (615) 365-1824.

and Licensing Manager (Acting)
