Subject: Transfer of License

Summary: The licensee requested termination of its license, and at the same time Alcoa Mill Products requested for a new license with the same individual listed as RSO. I called Larry to obtain information about the status of licensed activities.

He stated that Alcoa wants to get its own license and not work under his license. He stated that he will continue to perform the same tasks as before under the new license, and other than the licensed entity, nothing will change, except he will do all his work (servicing GL devices acquired by Alcoa Mill Products) at the Alcoa Mill Products.

I suggested that they do not need to get a new license and that they can acquire his license. He stated that some one in fees had told him that he can not transfer.

He stated that he will retract his request to terminate and proceed with transfer of his license to Alcoa. I provided him with the list of items that they need to respond to as stated in NUREG 1556, Vol. 15.
