SUBJECT: NRC INSPECTION REPORT NOS. 50-390/95-01 AND 50-391/95-01

Gentlemen:

This refers to the inspection conducted by Jonathan Bartley of this office during the period January 9-13, 1995. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The NRC determined that TVA's training programs required by 10 CFR 50.120 were in place and adequate to support operations.

Within the scope of the inspection, violations or deviations were not identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

(Original signed by J. J. Jaudon)
