Dear Ms. O'Neill:

This is in regard to the above NRC license. I have been trying to contact you since May 1, 2007. On May 1 your sister, Rosana, informed me that you had moved all licensed material to another location, but she did not provide me with the address of this new location. She also told me that you were attending school in the United States and could not be contacted. She had promised to have your husband call this office to provide information about the current status of your licensed activities and the licensed material, including the storage location.

I had informed her that you are required to request an amendment to your license prior to storing licensed material at a location that is not authorized on the license. This was the last contact I had with anyone from your company. I have left several messages on your voice mail but you have not bothered to respond to my requests for information. As of the date of this letter, this office has not received any information about your licensed activities.

Please be reminded that NRC regulations require that each licensee provide the NRC the opportunity to inspect material, and licensed activities. It is extremely important for you to contact this office as soon as possible and provide information about the status of your licensed activities. Please contact me at (610) 337 5364 as soon as possible.

Thank you for your cooperation.

Sincerely,
