Per our conversation the storage location at 1753 East Gings Road Rushville, Indiana is an employee home. He stores the sealed source radioactive gauge in basement storage room capable of securing with lock and key. This is within the home that may also be secured with lock and key. Family members do not normally occupy this portion of the home basement. He has one child at home who is 17 years of age.

Please advise if you require any additional information.

Regards,

141040
