Name of Licensee: Roberts Construction Company

Name of Participant(s): Archie Miller, Office Manager (OK Construction) & Sattar Lodhi

Telephone No. 304 565 3007

Subject: Confirmation of Acquisition of a Gauge

(NOTE: This will be used as the
Documents Title in ADAMS)

Summary:

Region I was notified by OCFO that they were unable to locate Roberts Construction Company. On September 28, 2006, an Order to Revoke the license was issued which became final on October 28, 2006.

On 11/20/06, I called David Roberts and left a message to which he responded on December 16, and told me that he has only one gauge which is not being used. I told him that his license has been revoked and he must dispose of the gauge as soon as possible. He stated that he is talking to a company that may buy the gauge. I asked him to let me know when the transfer is complete. This was the last communication with him. He never responded to my subsequent telephone requests.

On September 20, 2007, fees informed RI that Roberts Construction has filed for bankruptcy (ML072681082). OGC (Howard Benowitz) followed up with the courts and determined that the gauge was sold to Bilco company located in Charleston, WV. I looked up in our data base and noted that Bilco used to have NRC license but it was terminated. I called the number that Howard had provided to me. The individual told me that Bilco and OK Construction were sister companies and that OK Construction has a license.

I called OK Construction and talked to Arch Miller (Office Manager). He confirmed that they purchased a Troxler Model 3411B gauge from Roberts Construction Company on August 11, 2007. He told me it is the same model as the other two gauges that they already possess.

I verified that OK Construction's NRC license does authorize 3411B gauges. Therefore, the Roberts Construction License may be retired.

Action Required: Document and Retire Roberts Construction's license
