Subject: Hydrology Info initial request

After reviewing the tracer and pump test data, I suggest the following candidate wells for obtaining the WELLCAD files:

RW-1, MW-30, 31, 32, 33, 34, 35, 36, 37, 42, 49, 50, 53, 54, 55, 57, 63, 66 and MW-111

I appreciate Don Mayer's, IPEC radiological program coordinator willingness to send us the information prior to our May 9th meeting for our use and preparations for the tracer test discussions.

Regards,

Jim
