Given the traditional stakeholder interest in IPEC-related activities, you may want to consider informing/briefing the counties and local NGO's of this initiative or some subsequent briefing of outcome. Do you anticipate meeting with the NRC resident inspector office?

John,

As I mentioned in our call earlier I am organizing a site tour at Indian Point on 9/5, primarily for informational purposes for new DEC Deputy Commissioners.

The State Emergency Management Office administrator on the list is also new to his position and is taking this opportunity to get his first look at IP.

Attached is a draft list of tour participants.

Tim
