Subject: Seismic Threat

Jim - That was a very good discussion with USGS the other day. I was preparing a memo to Barb about the meeting and I when I started trying to demonstrate how the interpretations are made, I started to realize just how powerful a tool John's compilation are. It's great that you were able to have him do this work.

On a separate matter, I suspect that I may get a request from management about the earthquake threat at Indian Point. Can you direct me to any seismic analysis that you have on the site?
