Great.
Talk to you in about 20 minutes.
Tim

Tim: I am sending John Commiskey from my staff to observe on Wed and Thurs since you will have Friday covered.

>>> "Timothy Rice" <tbrice@gw.dec.state.ny.us> 05/01/2007 11:00 AM >>>

Good Morning,

John Frisone from our radiation program will be available to observe split sample collection at the riverfront wells this Friday. He has been on-site for this before. He will come down Thurs afternoon to be available early on Friday.

(It would be very helpful if John F. could bring all of the State splits back to Albany with him on Friday evening.)

Pat, Could you contact John directly at jcfrierson@gw.dec.state.ny.us, or at 518-402-8580 and provide him with any info he needs re: start time, security access, etc.? Also, is there any problem with John bringing the State's split samples (and Chain of Custody forms) back with him Friday?

Thanks,
Tim Rice
