Subject: Something else must be going on

It is amazing that an organization that claims to regulate over 100 nuclear power plants is unable to manage a simple web site. This has been screwed-up for over six weeks!

Website Offline Notification

We are currently having technical problems with the NRC's rulemaking website.

All public documents are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, the public can gain entry into the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if you have problems accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr@nrc.gov.

Comments on rulemakings can be submitted via e-mail to secy@nrc.gov or via the Federal eRulemaking Portal at <http://www.regulations.gov>.

Our contractor is taking every step to remedy the problem as quickly as possible. Thank you for your patience.
