(NRC INSPECTION REPORT NOS. 50-390/93-55, 50-391/93-55,
70-2910/93-01, AND 70-2928/93-01)

This refers to the inspection conducted by G. B. Kuzo of this office on August 2-6, 1993. The inspection included a review of activities authorized for your Watts Bar facility. The findings were discussed at the conclusion of the inspection, and, in addition, during a supplemental teleconference conducted on August 10, 1993, with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice).

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.
