Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-390/93-90 AND 50-391/93-90

Thank you for your response of February 22, 1994 to our Notice of Violation issued on January 19, 1994 concerning activities conducted at your Watts Bar facility under NRC License No. CPPR-91 and CPPR-92.

During a telephone conversation on March 17, 1993, between Mr. Rudisail of my staff and Mr. R. Brown of your site licensing staff, Mr. Brown agreed that current interim corrective actions for increased surveillance of the manholes would continue until complete assurance that the in-leakage problem had been corrected.

We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

AS
Albert F. Gibson, Director
Division of Reactor Safety
