Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-390/93-86 AND 50-391/93-86

Thank you for your response of March 18, 1994, to our concerns that were expressed in our cover letter to the above inspection report, dated January 24, 1994. The concerns were with regard to QA record plans and records for Electrical Equipment, Instrument Lines Supports, and Foundations and Concrete Structures. The inspection report referred specifically to the technical adequacy of the bounding analysis for sampling of instrument line supports contained in Calculation SD3-023. We are reviewing the adequacy of your responses and review of your implementation is currently being assessed by the QA Records CAP final inspection.

Sincerely,
