Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-390/91-29 AND 50-391/91-29

This refers to the NRC team inspection conducted by G. A. Walton on October 28 through November 15, 1991. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identifies activities that appeared to violate NRC requirements but are not cited; therefore, no response is required.
