FOIA/PA REQUEST

Case No.: 2008-0016
Date Rec'd: 10-15-07
Specialist: WINTERG
Related Case: _____

Oct. 9, 2007

Re : Freedom of Information Act request

U.S. Nuclear Regulatory Commission
Mail Stop T5-F11
Washington, DC 20555-0001

To whom it may concern :

I am seeking access to records and e-mails under the Freedom of Information Act.
I am seeking records, reports, and e-mails related to problems with two electric breakers associated with component cooling water pumps at Unit 1 of the Farley Nuclear Power Plant in Southeast Alabama that occurred this year.

I am also seeking records, reports, and e-mails related to an improperly operating valve related to a heat removal system at Farley Nuclear Power Plant which was discovered during surveillance testing in April 2006 and January 2007.

In addition, I am also requesting records, reports, and e-mails related to the automatic shutdown of Farley's Unit 2 on Oct. 3 of this year.

I am willing to pay any reasonable fees for these documents, but as a member of the media, I would request that any fees be waived since the documents will be of public interest to help explain problems at the nuclear power plant located in their community. If a fee is charged and will exceed \$100, please notify me before sending the information.

Sincerely,

Kendall Clinton
