Subject: **Final Status Survey Report**

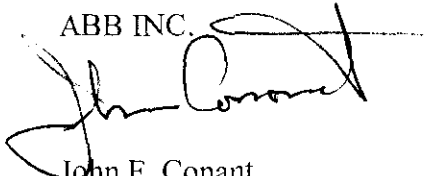

Dear Ms. Kauffman:

ABB Inc. ("ABB") is submitting a Final Status Survey ("FSS") Report for potentially impacted portions of the entire CE Windsor Site ("Site") that exclude FUSRAP areas. The Building 2, 5, 6A, and 17 Complexes likewise have been excluded, since the NRC already has addressed FSS reports submitted by ABB for those areas.

The FSS Report enclosed was produced commensurate with the Site Decommissioning Plan. In doing so, ABB has complied with the decommissioning requirements set forth in 10 CFR 30.36 and 10 CFR 20, subpart E. It is therefore requested by ABB that the U.S. Nuclear Regulatory Commission terminate that portion of ABB's License No. 06-00217-06 to the extent that it applies to all impacted and non-impacted portions of the Site except FUSRAP areas. These areas were defined in the Site Decommissioning Plan, which was approved by the NRC in June 2004.

ABB appreciates the attention and effort expended by the NRC in reviewing this FSS Report. If there are any questions or comments regarding this submittal, please contact me at (860) 285-5002 or by e-mail at [john.conant@us.abb.com](mailto:john.conant@us.abb.com).

Sincerely,

ABB INC.  
  
John F. Conant  
Senior Project Manager
