October 16, 2007

Chairman Dale E. Klein
US Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Chairman Dale E. Klein:

A half year has passed (from April 15, 2007). Indian Point Unit 2 legally runs at 100%. Indian Point Unit 3 legally runs at 100%. The new backup power siren system runs at 0% accepted.

I am asking you to end your generous patience with the Entergy/Indian Point new siren system on January 30, 2008 by, effective at 0001 hours on January 31, 2008, reducing the licensed power of Entergy/Indian Point 2 to 0.5% and reducing the licensed power of Entergy/Indian Point 3 to 0.5% if a backup power emergency siren system has not been accepted for full use.

Additionally, I am asking that a daily fine be assessed from April 17, 2007 to January 30, 2008.

Finally, I ask that any Entergy/Indian Point license extension applications be immediately returned until applicable operating requirements, (such as, but not limited to, an accepted backup power emergency siren system) are met. (Please note that I am only asking that license extension applications for Entergy/Indian Point be returned, not any from their other sites.)

Thank you,

Tom Gurdziel
