Subject: Tuscon Building 32 Information Request

Dear Bill,

Please find below additional information related to Building 32 at the VA facility in Tucson. Please let me know if you have any additional questions or need additional information.

1) Building 32 was situated on an approximately 116 acre site and one of approximately 40 buildings (maintained by the Southern Arizona VA Healthcare System (SAVAHS) of the Department of Veterans Affairs).

2) Building 32 was originally constructed in 1969 as a single story block frame and brick structure.

3) Building 32 was originally used to house animals for research, and then beginning July 1975, it was used for interim storage and treatment (by disposal to sewer and incineration) of research and medical radioactive wastes.

6) Building 32 was located on property that continues to be owned and controlled by the SAVAHS in a mixed residential/industrial urban area of Tucson, Arizona.

7) The last date of waste storage in the building was September 1, 2004. Final close-out survey conducted during the period of September-November 2004 and completed on November 8, 2004.

8) The amendment request for release of the building (Letter from NHPP to NRC) was dated June 12, 2007.

Best Regards,

Thomas E. Huston, PhD, CHP
