This CNWRA Ticket is closed.

Revision 1 of Topic 6A Interim Letter Report was been reviewed and approved. One mistake needing correction is on page 3-14 (last word in last sentence in last complete paragraph) and probably should be changed from "silicon" to "soil cover" (my guess is an overly automatic spelling checker). In addition, Sunny, the hard copy version you gave me had trouble with the formula symbols (e.g., changed equal signs into letters, etc.). The PDF file in ADAMS was fine, but I thought I'd let you know just in case. Thanks again for this revised report.
