Subject: Re: FW: Attached Letter

Dear Chairman:

This letter is to inform you, that I fully and completely endorse Tom Gurdziel's formal request for action. This endorsement in no way should be construed as a waiver of my own 2.206 petition's that are currently pending before your office. The days of a double standard where NRC's licensees are giving great variance in abiding by regulations, while citizens are held to a MUCH HIGHER STANDARD needs to come to and end. FEMA has failed Entergy's siren system, it does not meet Design Basis criteria, and simply stated does not work.

Each day the system fails to work is a SEPARATE VIOLATION that should come with a \$130,000 fine. If the NRC were actually doing its job (Protecting human health and the environment), right now Entergy would owe the NRC over \$17 MILLION dollars in fines...that kind of a drain on their profit picture would see them move heaven and earth to get the siren system up and running. NRC's current position of "we'll keep and eye on it" is simply unacceptable.

It is therefore requested, that I be added as a co-signer to this citizen's important action.

Sherwood Martinelli
