Subject: Re: July Groundwater Sampling Schedule at IPEC

Thanks, Sara. Going forward, the NRC is interested in only the following monitoring well samples: the riverfront wells (MW-60, 62, 63, 67) and the 3 LaFarge wells. Also, we only need 1 liter samples for analysis at ORISE. I will forward your schedule to NYS DEC since they may want a different arrangement. Thanks for your help.

Regards,

Jim

Jim,

Please find attached GZA's expected groundwater sampling schedule at Indian Point for the months of July and August. This sampling round is scheduled to begin on July 18th. If any of these samples are of interest to the NRC (in addition to those already discussed), please let me know so that GZA can make the proper arrangements. If any changes to the current schedule should arise, GZA will notify you as soon as possible. Please do not hesitate to call me with questions or concerns.

Thanks and have a great day.

Sincerely,

Sara J. Covelli
