SUBJECT: INSPECTION AND INVESTIGATION CONDUCTED ON SEPTEMBER 7 & 8, 1966, GENERAL ELECTRIC COMPANY, PHILADELPHIA, PENNSYLVANIA, LICENSE NOS. 37-2006-5 AND -6

I concurred in a notice of violation to the subject licensee which did not contain a citation for failure to make contamination surveys. All the other items were included. We were of the opinion that the violations of license condition 15 and 20.201(b) (failure to make airborne surveys) were sufficient to get at the problem. I think you'll agree. Furthermore, with their new man on the job, we don't anticipate future problems.
