MEMORANDUM TO: Luis A. Reyes
Executive Director for Operations

FROM: Michael R. Johnson, Chairman */RA/ M. Johnson*
Committee to Review Generic Requirements

SUBJECT: MINUTES OF THE 418th MEETING OF THE COMMITTEE
TO REVIEW GENERIC REQUIREMENTS

The purpose of this memorandum is to inform you that the Committee to Review Generic Requirements (CRGR) held its 418th meeting from 3:00 p.m. until 5:00 p.m. on Tuesday, October 23, 2007. (The enclosure to this memorandum lists the meeting attendees.) The purpose of this meeting was to discuss Generic Letter (GL) 2007-XX, "Managing Gas Intrusion in Emergency Core Cooling, Decay Heat Removal, and Containment Spray Systems." The transmittal memo for the GL and the staff's associated presentation slides are available through the Agencywide Documents Access and Management System (ADAMS), under Accession Nos. ML072410194 and ML072950468, respectively.

Mr. David P. Beaulieu from the Office of Nuclear Reactor Regulation briefed the CRGR on the draft final GL. The briefing consisted of discussions on the background, purpose and expected outcome of the GL, principle concerns, requested actions and stakeholder comments

Based on its review, the CRGR concluded that the GL does not impose a new regulatory requirement, position, or guidance; therefore, it does not represent a backfit. As a result of the briefing, the CRGR provided several comments to further clarify the GL and improve its effectiveness in achieving the intended goals.
