Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-390/94-54 AND 50-391/94-54

This refers to the inspection conducted by Messrs. Brady, Bearden, and Ruff at various times during the period July 11 - August 13, 1994. The inspection included a review of activities authorized for your Watts Bar facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observation of activities in progress.

The enclosed Inspection Report identifies activities that violated NRC requirements that will not be subject to enforcement action because your efforts in correcting the violation meet the criteria specified in Section VII.B. of the Enforcement Policy. In addition, the report identifies our concern with the employee exit process in relation to the employee concerns programs. TVA's letter of September 6, 1994, TVA Employee Concerns Program - Enhancement of Employee Exit Process, addressed the concern expressed during the inspection exit meeting. We appreciate your prompt response to this important area and believe the identified commitments are necessary to maintain the effectiveness of your employee concerns programs.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have questions concerning this letter, please contact us.

Sincerely,  
Original Signed By:  
J. P. Jaudon
