Control No. 140973

03001979

Dear Mr. McKinley:

On October 19, 2007, the Lead Technologist of the Nuclear Medicine Department had a discussion with your office regarding the Radiation Safety Program at UPMC St Margaret. The NRC region office received the initial request for RSO change on August 10, 2007. As of writing, we have not received contact from the NRC regarding the status of the review process.

Our present Radiation Safety Officer, Dr. Michael Reiser will no longer be acting on behalf of UPMC St. Margaret. As per your suggestion we have appointed Dr. Krishnadas Banerjee, PhD., as the temporarily RSO. Dr. Banerjee served as RSO at UPMC St. Margaret from 2003 to 2006. Dr Banerjee is a board certified Radiation Health Physicist and a well-respected member of the medical community. Please consider his immediate reinstatement as temporary RSO.

Sincerely,

Susan Hoolahan  
Vice-President
