Subject: Indian Point May 9-10 Hydrology Meeting Notes

Dear interested parties,

I finally got some time to draft the attached notes from last week's meeting. For those that attended the meeting, please let me know of any corrections or additions of significance. I trust this will help with John White and Tim Rice as briefing material for you. I hope this will provide Tom with enough raw material to help draft an inspection feeder of 1-2 pages to get to me by May 25th. Please let me know if this is too tight a schedule.

Regards,

Jim
