February 10, 1984

United States Nuclear Regulatory Commission License Fee Management Branch Office of Administration Washington, D.C. 20555

Attn: Glenda Jackson

Dear Ms. Jackson:

Per our telephone conversation of February 10, 1984, attached is a check for \$110.00 to cover the additional charge for renewal of our Materials License 37-02006-05 (Control Number 02064).

The additional charge is required due to the addition of a small amount of special nuclear material to this license for storage only.

Sincerely,

A. W. Kobylinski Industrial Hygienist
