Washington, DC 20555

Regulatory Docket File

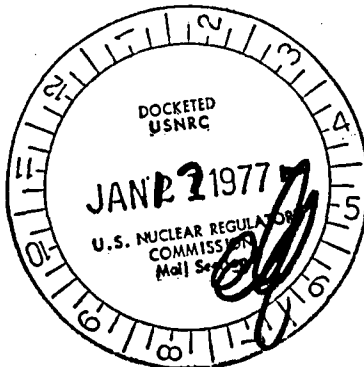

Dear Mr. Varga:

In the Matter of the Application of) Docket Nos. 50-390
Tennessee Valley Authority) 50-391

We received your December 13, 1976, letter informing us that our application for operating licenses for the Watts Bar Nuclear Plant units 1 and 2 has been accepted for review and that an appropriate notice had been forwarded to the Office of the Federal Register for publication.

Your letter stated that our application did not indicate that copies had been served on the appropriate Federal, state, and local officials and requested certification that we have complied with this requirement. Enclosed is a copy of a letter from L. M. Mills to you dated October 6, 1976, which forwarded an affidavit certifying that copies of the application had been served on those parties identified in Roger S. Boyd's letter to Godwin Williams, Jr., dated May 10, 1976.

The information in your December 13, 1976, letter concerning the local public document room is incorrect. The NRC changed the location of the local public document room to the Chattanooga Public Library as documented by a letter from Frank E. Logan to Kathryn Arnold dated June 25, 1976. Subsequently, a new library building has been completed and material related to Watts Bar should now be forwarded to:

Mr. Wally Keasler
Chattanooga-Hamilton County Bicentennial Library
1001 Broad Street
Chattanooga, Tennessee 37402

Very truly yours,

J. E. Gilleland
J. E. Gilleland
Assistant Manager of Power
