Gentlemen:

This refers to your applications dated June 14, 1977 and July 26, 1977 for amendment of License No. SUB-831.

Enclosed is your license which has been amended in accordance with your request except that authorization to use materials at temporary job sites has not been included.

Prior to amending your license to include use at temporary job sites, we need a complete description of management controls established to ensure that materials are used in a safe manner and in compliance with applicable Federal Regulations and the terms and conditions of your license. In addition, we need a description of the minimum training and experience of persons responsible for use at temporary job sites, the minimum acceptable facilities and equipment that will be required for temporary job sites and a description of your radiation safety and emergency procedures to be used at temporary jobsites.

Sincerely,

Earl G. Wright
