License No. SUB-831 Control No. 104645

Docket No. 040-07344

Licensee GE

____ New License

✓ Amendment

____ Renewal

____ Termination

Certification of Application Review for a Part 30, 40 and 70 License

I certify that I have reviewed the application dated 11/18/85 as supplemented by any letters referenced in the license in accordance with guidance provided by the Office of Nuclear Material Safety and Safeguards applicable Standard Review Plan and associated checklist and have concluded that:

____ A. 'If the licensee is being terminated, I have received adequate documentation to demonstrate that all radioactive materials and contamination possessed under this license has been properly removed and the licensee's facilities are suitable for unrestricted use, or that the radioactive material is covered by another valid license.'

✓ B. For a new license, amendment, or renewal:

(1) The application is for a purpose authorized by the Act;
(2) The applicant's proposed equipment and facilities are adequate to protect health and minimize danger to life or property;
(3) The applicant is qualified by training and experience to use the material for the purpose requested in such manner as to protect health and minimize danger to life;
(4) The applicant satifies any special requirements contained in Part 32-35; and
(5) The application is not for commercial waste disposal by land burial or for any other activity which the Commission has determined will significantly affect the quality of the environment.
