The licensee requested a change in RSO and a change in the mailing address. The current RSO is also the only Authorized User listed on the license and based on the licensee's letter it appears that this individual is leaving or has left the licensee's group. On October 15, 2007, Mr. McCormick contacted and asked to look into this matter with the licensee and provide an authorized user for this license if needed. Mr. McCormick indicated that he would get back to me by October 16, 2007.
