RE: Control Number-316426

Subject: Amendment to NRC Radioactive Materials License #13-32269-01

Dear Ms. Casey:

The following additional information is provided in response to our conversation on October 29, 2007.

1. The data for the instrumentation used for the close out is as follows:
 - a. Ludlum, 14C, 17008, Calibrated: July 20, 2007.
 - b. Packard, D5003, 406282, Calibrated: March 6, 2007. Eff:0.841
2. We confirm that we want to have the area located at 1650 45th Street, Munster, Indiana 46321 removed from our license as part of the close out survey provided.
3. We withdraw the request to change the Radiation Safety Officer at this time. I will continue to serve as the RSO until we have completed the full one year of required training supervision. Lynn Wiabel will serve as the RSO delegate at this facility for the onsite work. I will continue to provide temporary RSO support in accordance with the original request approved by your office.
4. We request the removal of Dr. Robert L. Peiss from the Authorized Users list.

If you have any questions or need further information concerning this matter please contact me at (800) 383-0468.

Sincerely,

James Hatten
Radiation Safety Officer
