

License No.: SUB-831

Control No.: 127259

Docket No.: 040-07344

Licensee:

Lockheed Martin Corporation

Action Type: Termination

Certification of Application Review for a Part 30, 40 and 70 License

I certify that I have reviewed the ^{letter} application dated August 26, 1999 as supplemented by any letters referenced in the license in accordance with guidance provided by the Office of Nuclear Material Safety and Safeguards applicable Standard Review Plan and associated checklist and have concluded that:

I have received adequate documentation to demonstrate that all radioactive materials and contamination possessed under this license have been properly removed and the licensee's facilities are suitable for unrestricted use, or that the radioactive material is covered by another valid license.
