Mr. Robert Brinkman
U. S. Atomic Energy Commission
Isotopes Branch
Division of Materials Licensing
Washington, D. C. 20545

Dear Mr. Brinkman:

Please amend AEC License 37-02006-05 to allow the use of byproduct material in the Valley Forge Space Technology Center, King of Prussia, Pennsylvania. The center was inadvertently left off our recent application for renewal of our license.

Effective November 17, 1972, please delete Robert O. McClintock as Radiation Safety Officer for AEC Licenses 37-02006-05, SMB-1005, and SNM-1199. Until a successor has been appointed, Thomas P. Handley, Chairman of the Ionizing Radiation Advisory Group, will be acting RSO. Mr. Handley will be assisted in this task by Jordan S. Davis, RSO for General Electric's ReEntry and Environmental Systems Division. Mr. Davis' resume is on file with the AEC under byproduct materials License 37-02006-06.
