Dear Mr. Thompson:

We received our amended license today, amendment number 10 whereby the Radiation Safety Officer was changed to John V Calce, MD. Our earlier request for amendment asked for the change of Radiation Officer from Scott Lawvere to John V Calce, MD however, we neglected to request the change to number 11 whereby license material shall be used by or under the supervision of Scott Lawvere or David John Watts. Scott Lawvere should be deleted and replaced with John V Calce, MD. The change will indicate that number 11 will read licensed material shall be used by or under the supervision of John V Calce, MD or David John Watts.

Once this change has been made in order to expedite more quickly please fax a copy to my attention at 1-905-764-0035 or send via Fed-Ex under our account number 1047-0290-2.

Please expedite this application and advise us as soon as possible as we are holding up shipments to the GSA and Department of Defense.

If you have any questions or need any clarification please do not hesitate to contact us at 1-800-822-4329.

Yours truly,
