U.S. Nuclear Regulatory Commission
Director of Nuclear Material
Safety and Safeguards
Washington, D.C. 20555

Gentlemen:

This letter requests an amendment to license #37-02006-05 to increase certain amounts permitted under the license. Specifically, please amend sections 6.A., 6.E., 7.A., 7.E., 8.A., 8.E., as follows:

- 6.A. Any byproduct material with atomics nos. 3 to 83, inclusive
- 7.A. Sealed sources
- 8.A. 50 curies

- 6.E. Any byproduct material with atomic nos. 3 to 83, inclusive
- 7.E. Any
- 8.E. 50 curies

Please retain all other items under sections 6, 7, and 8 as currently listed.

The byproduct material possessed under this license is used for research and development purposes according to the conditions and requirements stipulated in previous applications.

Your early attention to this amendment will be greatly appreciated.

R. G. Oesterling, C.H.P.
Health Physicist
(Radiation Safety Officer)
