Division of Nuclear Material Safety  
Region I  
King of Prussia, PA 19406

Ref: Notification of temporary discontinuance of nuclear medicine service

To Whom It May Concern:

03008198

Since August 2006, the Department of Radiology at Greenville Hospital has temporarily stopped performing nuclear imaging procedures permitted under NRC License number 29-14859-01. No nuclear imaging or non-imaging studies have been done since that date.

The hospital radiation safety committee, however, continues to monitor the radiation safety program by conducting quarterly review meetings. The hospital RSO and the medical physicist continue to present to the radiation safety committee relevant radiation safety reports consistent with the license requirements. All sealed calibration sources and hot lab equipment are securely kept, with relevant records, in the hot lab in radiology.

We will notify you when the hospital decides to resumes the nuclear medicine program.

Please call for any questions

Sincerely

Brenda Hall  
Vice President

Manuel Aragonés, M.D.  
Radiation Safety Officer
