Chairman Robert Chicks
Stockbridge-Munsee Band of the
Mohican Nation, Wisconsin
Route 1, P.O. Box 70
Bowler, WI 54416

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chairman Chicks:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Stockbridge-Munsee Band of the Mohican Nation, Wisconsin. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Stockbridge-Munsee Band of the Mohican Nation, Wisconsin to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Stockbridge-Munsee Band of the Mohican Nation, Wisconsin may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Mr. Powles Jr.:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Onondaga Nation. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Onondaga Nation to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Onondaga Nation may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chairman Danforth:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Oneida Nation of Wisconsin. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Oneida Nation of Wisconsin to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Oneida Nation of Wisconsin may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chairman Cline:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Delaware Trust Board. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Delaware Trust Board to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Delaware Trust Board may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Governor Nuckolls:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Absentee-Shawnee Tribe of Oklahoma. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Absentee-Shawnee Tribe of Oklahoma to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Absentee-Shawnee Tribe of Oklahoma may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chief Ransom:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the St. Regis Mohawk Tribe. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the St. Regis Mohawk Tribe to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the St. Regis Mohawk Tribe may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Mr. Halbritter:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Oneida Indian Nation. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Oneida Indian Nation to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Oneida Indian Nation may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chief Henry:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Tuscarora Nation. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Tuscarora Nation to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Tuscarora Nation may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chief Spicer:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Seneca-Cayuga Tribe of Oklahoma. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Seneca-Cayuga Tribe of Oklahoma to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Seneca-Cayuga Tribe of Oklahoma may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear President John:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Seneca Nation of Indians. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Seneca Nation of Indians to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Seneca Nation of Indians may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chief Wallace:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Eastern Shawnee Tribe of Oklahoma. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Eastern Shawnee Tribe of Oklahoma to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Eastern Shawnee Tribe of Oklahoma may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER
STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear President Holton:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Delaware Nation. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Delaware Nation to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Delaware Nation may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

SUBJECT: REQUEST FOR COMMENTS CONCERNING THE BEAVER VALLEY POWER STATION, UNITS 1 AND 2, LICENSE RENEWAL APPLICATION REVIEW

Dear Chief Hill:

The U.S. Nuclear Regulatory Commission (NRC) is seeking input for its environmental review of an application from FirstEnergy Nuclear Operating Company (FENOC) for the renewal of the operating licenses for the Beaver Valley Power Station (BVPS), Units 1 and 2, located in Shippingport in Beaver County, Pennsylvania. BVPS is in close proximity to lands that may be of interest to the Tonawanda Seneca Nation. As described below, the NRC's process includes an opportunity for public and inter-governmental participation in the environmental review. We want to ensure that you are aware of our efforts and, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 51, Section 51.28(b), the NRC invites the Tonawanda Seneca Nation to provide input to the scoping process relating to the NRC's environmental review of the application. In addition, as outlined in 36 CFR 800.8(c), the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act of 1966 through the requirements of the National Environmental Policy Act (NEPA) of 1969.

Under NRC regulations, the original operating license for a nuclear power plant is issued for up to 40 years. The license may be renewed for up to an additional 20 years if NRC requirements are met. The current operating licenses for BVPS will expire on January 29, 2016, and May 27, 2027, respectively. FirstEnergy submitted its application for renewal of the BVPS operating licenses in a letter dated August 27, 2007.

The NRC is gathering information for a BVPS site-specific supplement to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), NUREG-1437. The supplement will contain the results of the review of the environmental impacts on the area surrounding the BVPS site related to terrestrial ecology, aquatic ecology, hydrology, cultural resources, and socioeconomic issues (among others) and will contain a recommendation regarding the environmental acceptability of the license renewal action. Provided for your information is the BVPS Site Layout (Enclosure 1) and Transmission Line Map (Enclosure 2).

To accommodate interested members of the public, the NRC will hold two identical public meetings covering the license renewal review process and NEPA scoping for the BVPS license renewal supplement to the GEIS on November 27, 2007, located at the Embassy Suites, Pittsburgh-International Airport, 550 Cherrington Parkway, Pittsburgh, PA 15108. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7:00 p.m., with a repeat of the overview portions of the meeting, and will continue until 10:00 p.m., as necessary. Additionally, the NRC staff will host informal discussions one hour before the start of each session.

The license renewal application (LRA) and the GEIS are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The accession number for the LRA is ML072430913. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdrr@nrc.gov.

The BVPS LRA is also available on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/bvalley.html>. In addition, the Beaver Area Memorial Library, located at 100 College Ave., Beaver, PA 15009-2704, and the Beaver County Library System, located at 1 Campus Drive, Monaca, PA 15061, have agreed to make the LRA available for public inspection.

Please submit any comments that the Tonawanda Seneca Nation may have to offer on the scope of the environmental review by December 17, 2007. Written comments should be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Electronic comments may be submitted to the NRC by e-mail at BeaverValleyEIS@nrc.gov. At the conclusion of the scoping process, the NRC staff will prepare a summary of the significant issues identified and the conclusions reached, and mail a copy to you.

The staff expects to publish the draft supplement to the GEIS in September 2008. The NRC will hold another set of public meetings in the site vicinity to solicit comments on the draft supplemental environmental impact statement (SEIS). A copy of the draft SEIS will be sent to you for your review and comment. After consideration of public comments received on the draft, the NRC will prepare a final SEIS. The issuance of a final SEIS for BVPS is planned for May 2009.

R. Hill
