Subject: RE: Draft LC 13 for review....

Ron:
I have reviewed the draft LA #13 and have the following minor comments:
Cond. 9.4c - typo: "The licensee=s ..."

Cond. 10.3 - typos on page 7 listing Irigaray Units 1-5 and 8-9.

Cond. 11.3 - suggest following: "The licensee shall conduct **personnel**, effluent, and environmental monitoring programs in accordance with **Sections 5.7 and 5.8** of the approved license application." (Section 5.7 deals with radiological monitoring of personnel.)

Cond. 11.5 - suggest inclusion of Christensen Ranch Satellite in daily walk throughs, consistent with last operational license.

Cond. 11.6 - as worded the condition still unnecessarily repeats "shall be documented". See April 3, 2007 amendment request. Also missing a comma after the word "calibration".

Otherwise, the draft looks good to me. Do you have any feel for the timing of a decision on the CATX? Is there anything that we can do to help facilitate the decision process?

Tom

Tom:
Attached is the draft of COGEMA's proposed LA #13. It is in concurrence and I'm not sure if our legal folks will agree with the CATX or not, but I'm hoping to persuade them. However, there were a few minor differences in the License Conditions from what you proposed in the April 4 restart application what is in LC 13. I need you to agree to the changes. Please look over the attached and if you agree, please let me know.
Ron
