Mr. Daniel H. Dorman, Director  
Division of Security Operations  
Office of Nuclear Security and Incident Response  
ATTN: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

**American Centrifuge Plant  
Docket Number 70-7004; License Number SNM-2011  
Submittal of Changed Pages to the Emergency Plan for the American Centrifuge Plant**

Dear Mr. Dorman:

In accordance with 10 *Code of Federal Regulations* (CFR) 70.32(i), USEC Inc. (USEC) hereby submits changed pages to the Emergency Plan for the American Centrifuge Plant (ACP) as Enclosure 1 of this letter. Revision bars in the right hand margin depict changes from the previous revision submitted to the U.S. Nuclear Regulatory Commission (NRC).

Currently, the NRC-accepted Emergency Plan in effect at the U.S. Department of Energy reservation in Piketon, Ohio is the United States Enrichment Corporation's Emergency Plan, which USEC credited within Chapter 8.0 of the License Application for the Lead Cascade Facility. Changed pages for this site-wide Emergency Plan are currently submitted to the affected off-site response organizations in accordance with 10 CFR 76.91(o) and will remain effective until implementation of the Emergency Plan for the ACP. Upon full implementation of the new site-wide Emergency Plan and in accordance with 10 CFR 70.32(i), USEC will begin supplying changed pages to the affected off-site response organizations through the controlled distribution process.

The change noted in Enclosure 1 has been reviewed in accordance with 10 CFR 70.72 and has been determined not to require prior NRC approval. This change has also been reviewed in accordance with 10 CFR 70.32 and has been determined not to decrease the effectiveness of the applicable plan.

If you have any questions regarding this matter, please contact me at (301) 564-3470.

Sincerely,

Peter J. Miner  
Director, Regulatory and Quality Assurance

Enclosure: As Stated
