**REPLY TO NOTICE OF VIOLATION**

Pamela J. Henderson, Chief  
Medical Branch  
Division of Nuclear Materials Safety

Subject: Notice of Violation; Docket No. 03002947; License No. 37-00358-04

In response to these specific violations as stated:

1. On January 10, 2006 a patient was implanted with 31 millicuries of Iodine-125 and the written directive did not include the treatment site and dose, prior to implantation.
2. On March 2, 2005, 29.5 millicuries of Iodine-125 was implanted in a patient and the written directive was not signed by the authorized user and the written directive did not contain the treatment site and dose prior to implantation.

Reason for errors: Over site

Corrective action: Training and immediate post-procedure review of all documentation resulting in full compliance with NRC regulations.

Compliance achieved: current

Thank you very much for the review of this important compliance information.

Sincerely,

Rebekah Tischbein, RSO
